

Introduction

This booklet is designed to give you, your friends, and your family an overview of the Radiation Oncology Department and the services available. We hope that the information provided answers some of the questions you may have. The staff and service providers are here to assist you in your cancer treatment journey, and to make it as easy and comfortable for you as possible. If you have any problems, concerns or questions along the way, you are always welcome to ask for help. We have left a blank page at the end of this booklet entitled “Notes & Questions”, for you to write down questions you may want to ask the next time you see your health care professional.

Parking

The department has ten reserved car parks for patients receiving radiation therapy. You will be issued with a blue parking card to display on your car dashboard when using these parks. This card will be issued to you with your appointment for Computed Tomography (CT).
