### Registered Nurse Prescribing

#### Fact Sheet

<table>
<thead>
<tr>
<th>Questions</th>
<th>Answers</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>What is nurse prescribing?</strong></td>
<td>Nurse prescribing is a prescribed postgraduate qualification for registered nurses (RN), registered with the Nursing Council of New Zealand (NCNZ). RNs who are awarded a postgraduate diploma in registered nurse prescribing will be able to prescribe within primary health and specialty teams. Provision for this qualification falls under Section 12 of the Health Practitioners Competence Assurance (HPCA) Act 2003.</td>
</tr>
<tr>
<td><strong>What competency standards are required?</strong></td>
<td>The NCNZ states that, “nurses working under the registered scope of practice, will be qualified as a nurse prescriber, working within the competencies and criteria developed specifically for the additional qualification”. The competencies can be found at: <a href="http://www.nursingcouncil.org.nz/News/Application-for-prescribing-rights-for-registered-nurses">http://www.nursingcouncil.org.nz/News/Application-for-prescribing-rights-for-registered-nurses</a></td>
</tr>
<tr>
<td><strong>What are the pre-requisites for nurse prescribing?</strong></td>
<td>▪ Employer support to undertake the programme. ▪ A minimum of three years’ experience in the area of prescribing practice. ▪ Completion of a postgraduate diploma in registered nurse prescribing for long term and common conditions ▪ Completion of a prescribing practicum of 150 hours with a designated authorised prescriber (medical or Nurse Practitioner) as part of the postgraduate diploma. ▪ A limited list of medications from which the nurse can prescribe within their competence and area of practice. ▪ A condition included in their scope of practice to complete a further 12 months of supervised prescribing practice when they are authorised by the NCNZ to prescribe. ▪ Ongoing competence requirements for prescribing. <a href="http://www.nursingcouncil.org.nz/Nurses/Registered-Nurse-Prescribing/Preparing-to-prescribe-information-for-nurses-prescribing-mentors-and-educators">(Adapted from: http://www.nursingcouncil.org.nz/Nurses/Registered-Nurse-Prescribing/Preparing-to-prescribe-information-for-nurses-prescribing-mentors-and-educators)</a></td>
</tr>
<tr>
<td><strong>What subjects are included in the postgraduate diploma?</strong></td>
<td>NCNZ have directed the content of the postgraduate diploma. The programme requires students to complete: ▪ Physiology and Pathophysiology ▪ Clinical Pharmacology ▪ Assessment and Clinical Decision-Making ▪ A minimum of 150 hours in a Registered Nurse Prescribing</td>
</tr>
<tr>
<td><strong>What employment opportunities are there?</strong></td>
<td><strong>Practicum</strong> (under the supervision of an authorised prescriber i.e. medical or Nurse Practitioner).</td>
</tr>
<tr>
<td>------------------------------------------------</td>
<td>---------------------------------------------------------------------------------</td>
</tr>
<tr>
<td><strong>Is there a panel interview with NCNZ?</strong></td>
<td>NCNZ requires that a RN wanting to enrol in a prescribing qualification <strong>must have an agreement by their employer to undertake the study, and have an identified position as an RN prescriber in long terms conditions and common conditions.</strong> This agreement includes the identification of an authorised prescriber mentor within the area that the RN is intending to prescribe.</td>
</tr>
<tr>
<td><strong>If the practicum requirements for the NP pathway have been completed, can RN Prescribing (without registration as a NP) be undertaken?</strong></td>
<td>No, however, the NCNZ requires notification from the tertiary education institution that all requirements have been met. RNs must provide a portfolio of evidence to the NCNZ on application for recognition of the award.</td>
</tr>
<tr>
<td><strong>Will diabetes prescribers be able to awarded RN prescribing rights?</strong></td>
<td>Yes, if a RN has completed the practicum requirements for registration as a NP, but has decided to change pathways to prescribing practice, recognition of prior learning can be considered, based on the requirement that the RN has been in the area of practice where prescribing will be undertaken, for a minimum of three years.</td>
</tr>
<tr>
<td><strong>Who do I contact for further information?</strong></td>
<td>The NCNZ will manage this process directly and will contact all diabetes prescribers. Awards will be made on an individual basis.</td>
</tr>

Medicines (Designated Prescriber; Registered Nurses) Regulations 2016

2016/140

Medicines (Designated Prescriber—Registered Nurses)
Regulations 2016

Jerry Mateparae, Governor-General

Order in Council

At Wellington this 20th day of June 2016

Present:
His Excellency the Governor-General in Council

These regulations are made under sections 105 and 105B of the Medicines Act 1981—
(a) on the advice and with the consent of the Executive Council; and
(b) on the advice of the Minister of Health given in accordance with section 105(1) of that Act.

1
Regulations

1 Title
These regulations are the Medicines (Designated Prescriber—Registered Nurses) Regulations 2016.

2 Commencement
These regulations come into force on 20 September 2016.

3 Purpose
The purpose of these regulations is—
(a) to authorise registered nurses who meet specified requirements for qualifications, training, and competence to be designated prescribers for the purpose of prescribing specified prescription medicines; and
(b) to provide for the qualifications, training, and competence requirements; and
(c) to prohibit registered nurses from prescribing specified prescription medicines if they fail to comply with the requirements; and
(d) to make non-compliance with the requirements an offence.

4 Interpretation
In these regulations, unless the context otherwise requires,—

Act means the Medicines Act 1981
registered nurse means a health practitioner who—
(a) is, or is deemed to be, registered with the Nursing Council of New Zealand continued by section 114(1)(a) of the Health Practitioners Competence Assurance Act 2003 as a practitioner of the profession of nursing and whose scope of practice permits the performance of registered nurse functions; and
(b) holds a current practising certificate
specified prescription medicine means a prescription medicine that—
(a) is specified for prescription by registered nurses by notice in the Gazette under section 105(5A) of the Act; or
(b) belongs to a class or description of prescription medicines that are specified for prescription by registered nurses by notice in the Gazette under section 105(5A) of the Act.

5 Authority to prescribe specified prescription medicine
A registered nurse may prescribe a specified prescription medicine if he or she complies with the requirements of regulations 6, 7, and 8.
6 **Requirements for commencing to prescribe for first time**

Before prescribing a specified prescription medicine for the first time, a registered nurse must—

(a) obtain the qualifications required for registered nurses, or a class of registered nurses, specified by the Nursing Council by notice in the *Gazette* for the purposes of these regulations; and

(b) undertake and successfully complete the training for registered nurses, or a class of registered nurses, specified by the Nursing Council by notice in the *Gazette* for the purposes of these regulations; and

(c) demonstrate to the satisfaction of the Nursing Council that he or she is sufficiently knowledgeable to safely prescribe specified prescription medicines; and

(d) be authorised by the Nursing Council to prescribe specified prescription medicines.

7 **Other training to be undertaken**

Before prescribing a specified prescription medicine, a registered nurse must—

(a) undertake and successfully complete any training for registered nurses, or a class of registered nurses, specified by the Nursing Council by notice in the *Gazette* for the purposes of these regulations; and

(b) do so within the periods, or at the times, specified for the purpose in the notice, if the training is of an ongoing nature.

8 **Assessment of competence to be completed**

Before prescribing a specified prescription medicine, a registered nurse must—

(a) successfully complete any assessment of his or her competence to prescribe specified prescription medicines that is specified by the Nursing Council by notice in the *Gazette* for the purposes of these regulations; and

(b) do so within the periods, or at the times, specified for the purpose in the notice, if the assessment is to be completed at regular intervals.

9 **Gazette notices**

(1) For the purposes of these regulations, a notice in the *Gazette*—

(a) comes into force on the day after the date of its publication or on a later date specified for the purpose in the notice; and

(b) may provide that it expires, if not revoked earlier, at the end of a specified day.

(2) Within 5 working days after the date of publication of a notice in the *Gazette* for the purposes of these regulations, and while the notice remains in force, the
Nursing Council must ensure that an up-to-date version of the notice is available—
(a) on the Internet; and
(b) at the office of the Nursing Council during business hours, so that members of the public may—
   (i) inspect the notice free of charge; and
   (ii) obtain a copy of the notice for a reasonable fee.

10 Prohibition against prescribing specified prescription medicines
(1) A registered nurse must not prescribe a specified prescription medicine unless he or she complies with the requirements of regulations 6, 7, and 8.
(2) A registered nurse commits an offence if he or she breaches subclause (1) and is liable on conviction to a fine not exceeding $500.

11 Revocation
The Medicines (Designated Prescriber—Registered Nurses Practising in Diabetes Health) Regulations 2011 (SR 2011/54) are revoked on the close of 30 November 2016.

Michael Webster,
Clerk of the Executive Council.

Explanatory note
This note is not part of the regulations, but is intended to indicate their general effect.
These regulations come into force on 20 September 2016. They permit certain registered nurses to prescribe prescription medicines that are specified for prescription by registered nurses by notice in the Gazette under section 105(5A) of the Medicines Act 1981. To be permitted to do so, registered nurses must meet the requirements of the regulations relating to qualifications, training, and competence.
The Nursing Council may specify details of the qualifications, training, and competence requirements by notice in the Gazette.
A registered nurse who does not meet those requirements must not prescribe the specified prescription medicines. A registered nurse who does so commits an offence and is liable on conviction to a fine not exceeding $500.
These regulations supersede the Medicines (Designated Prescriber—Registered Nurses Practising in Diabetes Health) Regulations 2011 (the 2011 Regulations). However, as a transitional measure, the 2011 Regulations are not revoked until the close of 30 November 2016.
Medicines (Designated Prescriber—Registered Nurses) Regulations 2016

2016/140

Issued under the authority of the Legislation Act 2012.
Date of notification in Gazette: 23 June 2016.
These regulations are administered by the Ministry of Health.

Wellington, New Zealand:
Published under the authority of the New Zealand Government—2016
